# Four Seasons in Japan

Japan has four seasons.

Spring

Summer

Autumn

Winter

# 1.Spring

Month

March ~ May

Temperature

March ---  $4^{\circ}\sim 16^{\circ}$

April ---  $10^{\circ}\sim 20^{\circ}$

May ---  $15^{\circ}\sim 26^{\circ}$

Characteristics

We can see “cherry blossoms” in almost every place in Japan.

## 2. Summer

Month

June ~ September

Temperature

June ---  $18^{\circ} \sim 27^{\circ}$

July ---  $22^{\circ} \sim 30^{\circ}$

August ---  $23^{\circ} \sim 32^{\circ}$

September ---  $19^{\circ} \sim 27^{\circ}$

Characteristics

In June, It's going to rain a lot.

And summers in Japan are really hot.

# 3.Autumn

Month

September~November

Temperature

September --- 19° ~ 27°

October --- 12° ~ 22°

November --- 6° ~ 16°

Characteristics

Cool and easy to spend time in.

Recently, autumn has become shorter than before.

We can see the autumn leaves in almost every place in Japan.

## 4.Winter

Month

December ~ February

Temperature

December ---  $1^{\circ} \sim 12^{\circ}$

January ---  $-1^{\circ} \sim 10^{\circ}$

February ---  $-1^{\circ} \sim 10^{\circ}$

Characteristic

Anyway, it was cold and the wind was chilly.

It snows, so there are many people  
who enjoy winter sports.

# Geographical Features

1.75%

2.Ranked 1st

3.Exception (Tokyo)

4.TKU

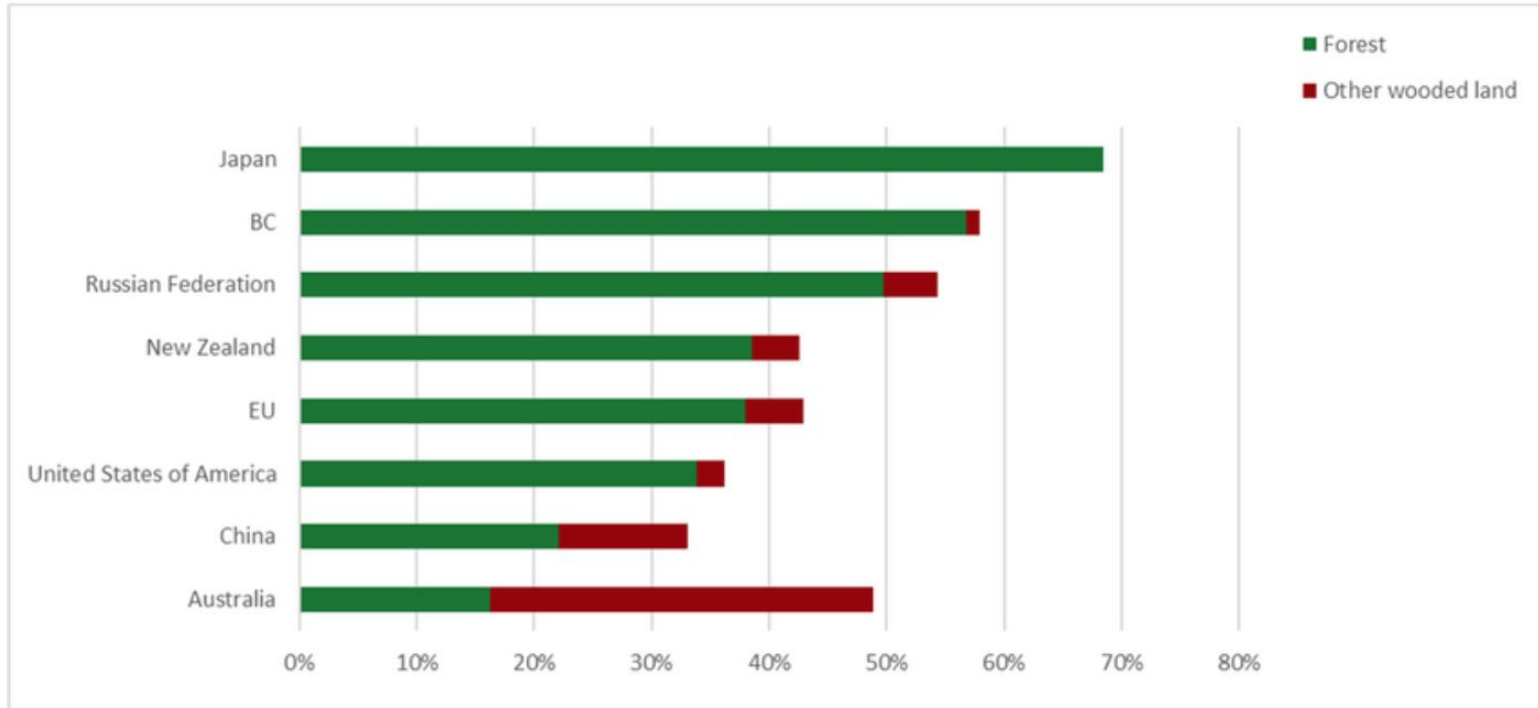

1. 75%

**75%** in Japan is Mountains.

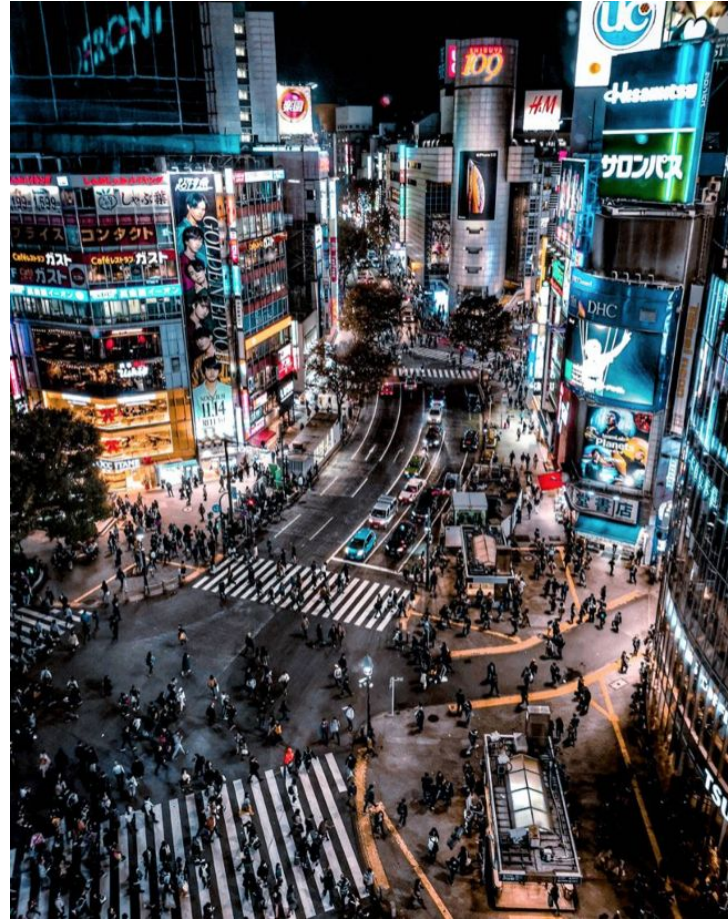

## 2.anked 1st

Forest area as percentage of land area (FRA 2015).

### 3.Exception (Tokyo)

## 4.TKU

# Conclusion.

1. 75% is forest
2. Forest area Ranks No.1 in the world
3. Tokyo is almost only building
4. TKU have a lot of nature

Thank you for listening
